# 01 Introduction

The 288 Token is a utility token that grants its holders exclusive access to the trading platform of an EU-based and licensed securities brokerage company.

By staking the 288 Token, users can enjoy many benefits and privileges within the broker's ecosystem.

The 288 Token creates an ecosystem that enhances the trading experience, rewards token holders, and provides access and fee discounts on a wide range of services.

## **Market Strategy:**

The market strategy of the 288 Token involves selling 10% of the total 288 token supply (the "Private Sale") to qualified investors, with a minimum investment size of USD 100,000 per qualified investor. The goal is to raise at least USD 8 million through the Private Sale.

Once the Token Generation Event ("TGE") has taken place, the 288 tokens will be automatically allocated to the holders. Subsequently, the 288 Token may be listed on selected centralized exchanges.

A portion (10%) of the funds raised will be allocated to a comprehensive marketing campaign for both the 288 Token and the brokerage company. This strategy aims to raise awareness and attract customers to both entities.

# 02 Background

The current brokerage business provides a variety of financial services. Clients can open trading and investment accounts and deposit funds to trade on the global financial markets.

STAK Securities Ltd, through its trading platform, offers access to a wide range of financial instruments, including:

- interest-bearing deposit accounts;
- access to stock exchanges;
- forex & crypto CFDs;
- funds, bonds, ETFs;
- structured products.

Additionally, clients with larger accounts can entrust the brokerage's team with portfolio management services, investment advice, wealth management, and family office services.

The brokerage trading platform offers a wide range of services to new clients. However, new clients, not holders and stakers of the 288 Token, will pay the standard transaction and brokerage fees and will not receive staking loyalty rewards.

# 03 Proposed Benefits

## **Collaboration between the brokerage and the 288 Token protocol:**

STAK Securities Ltd, a strategic partner, will collaborate with the 288 protocol to provide additional benefits to 288 token holders.

288 Token holders will be able to apply and open accounts with STAK Securities Ltd. and enjoy the advantages described above.

STAK Securities Ltd. will allocate up to 18% of its revenue to the 288 Token protocol, which will be used for marketing initiatives and staking rewards for 288 token holders.

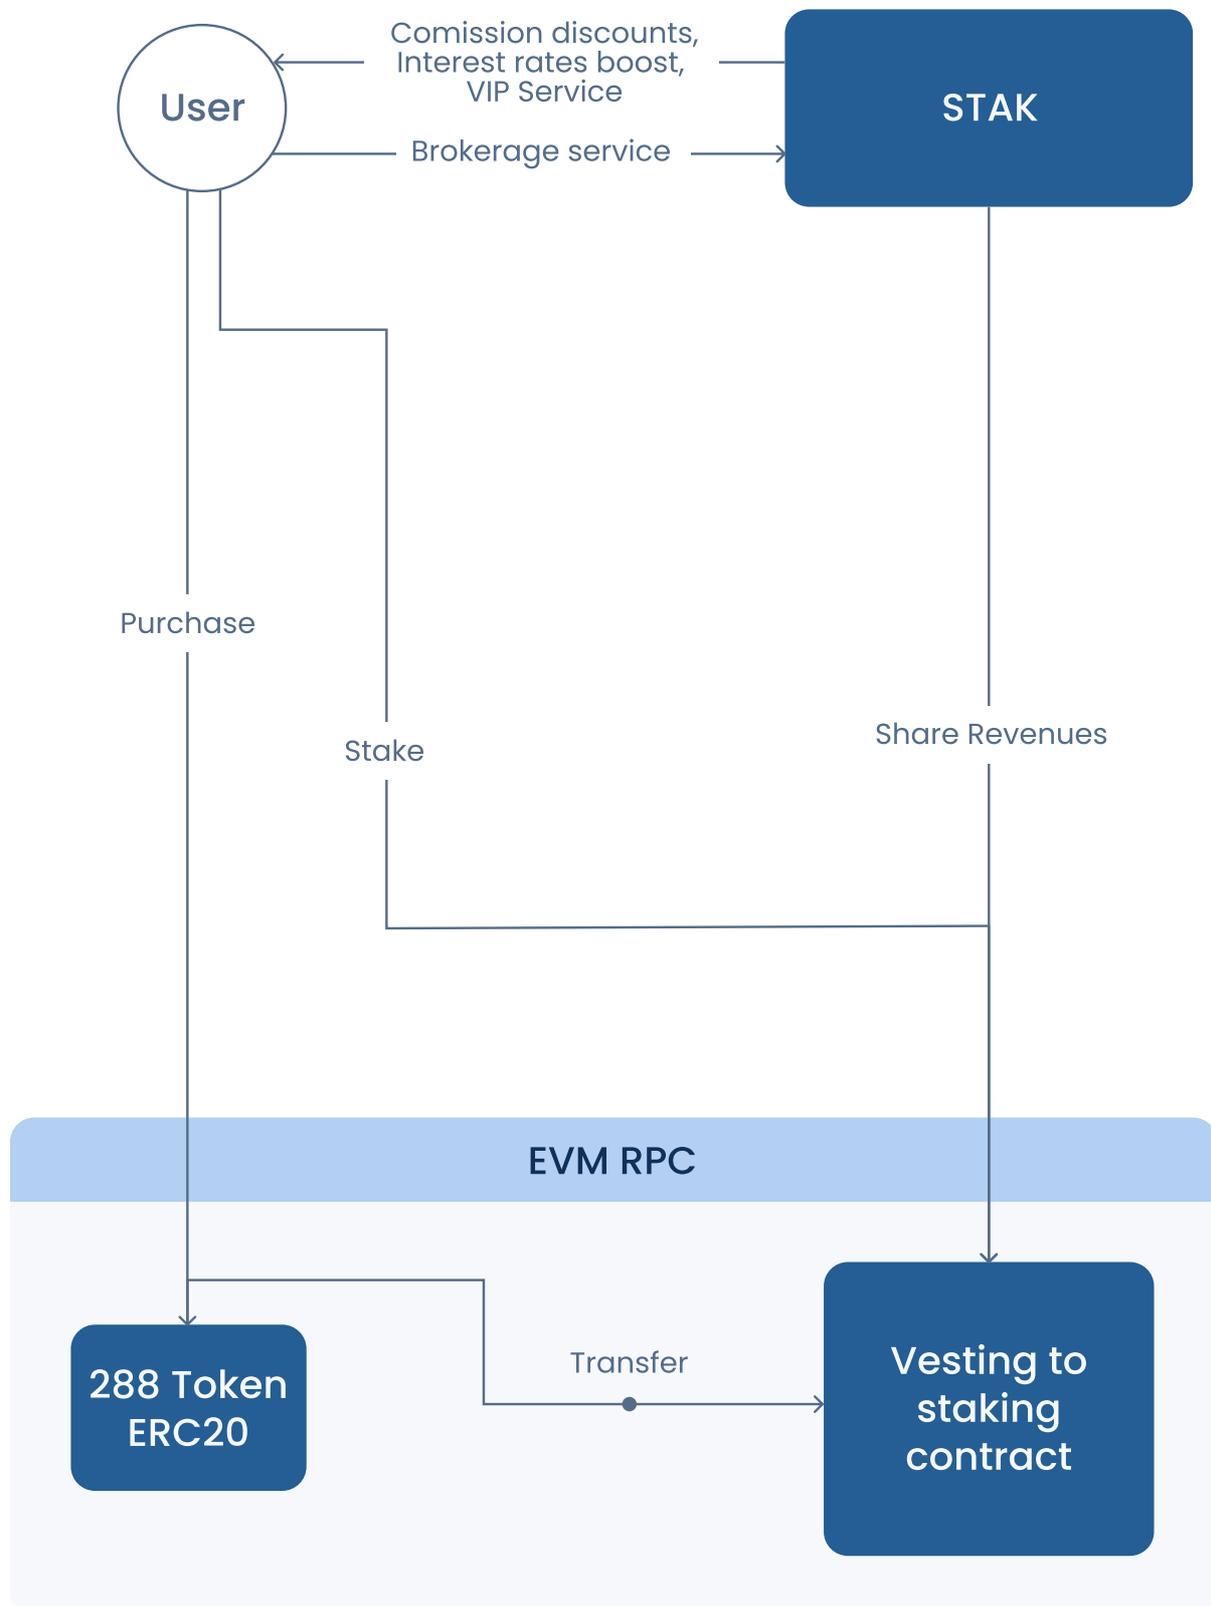

By combining the strengths of the 288 Token protocol and the collaboration with STAK Securities Ltd, 288 token holders will have access to high-quality services at a fraction of the regular price.

## **DeFi:**

The collaboration between STAK Securities Ltd. and the 288 Token protocol combines the strengths of traditional financial services and decentralized finance.

While STAK Securities Ltd. offers licensed and regulated financial services with established expertise, the 288 Token protocol brings the advantages of DeFi, such as decentralization, transparency, and accessibility. This synergy provides the 288 token holders and stakers with a comprehensive and innovative financial ecosystem that combines the best of both worlds.

# 04 Technical Details and Architecture

## 288 Token Details

The 288 Token is an ERC20 token that operates on the EVM-compatible blockchain and has a fixed supply of 8,000,000,000 tokens. The 288 Token adheres to the widely adopted ERC20 standard, ensuring compatibility with various wallets and exchanges. Besides, the 288 Token serves as the core utility within the 288 protocol, granting 288 token holders access to exclusive benefits, staking loyalty rewards, and functionalities.

### Staking Contract:

The 288 Token incorporates a Staking contract that allows 288 token holders to stake their 288 tokens for specified periods. The staking periods have been designed with flexibility in mind, offering an infinite duration model with a minimum staking period of **30** days.

By staking their 288 tokens, 288 Token holders can earn staking loyalty rewards and brokerage fee discounts in connection to the services STAK Securities Ltd. provides. The brokerage fee discounts depend on the staked token amount and the duration of staking. Brokerage fee discounts can be as high as 75% of the standard fees.

# Tokenomics and Business Model

## 288 Token Distribution:

### Allocation

The initial 288 Token distribution is 8 billion tokens. This number includes all 288 Token recipient categories in the 288 Token distribution schedule.

### Private Sale (10%)

Each Private Sale participant will have an initial unlock of 5% of the total committed amount and a 3-month lock-up period after TGE before the 12-month vesting to staking period starts.

### IDO/IEO (5%)

All IDO/IEO participants will have an initial unlock of 20% of the total committed amount per IDO/IEO participant and then 12-month vesting to staking period starts.

### Team (20%)

The core team will be incentivized with 20% of tokens for the future development and expansion of the platform. To provide fair incentivization, team tokens will be locked for 3 months before the 24-month vesting period starts.

### **Platform Evolution (10%)**

Incentivization for the development team, platform maintenance, and security audits. To prevent the market's oversaturation, these tokens will have a 1-month lock-up at TGE before the 24-month vesting period starts.

### **Marketing & Partnerships (10%)**

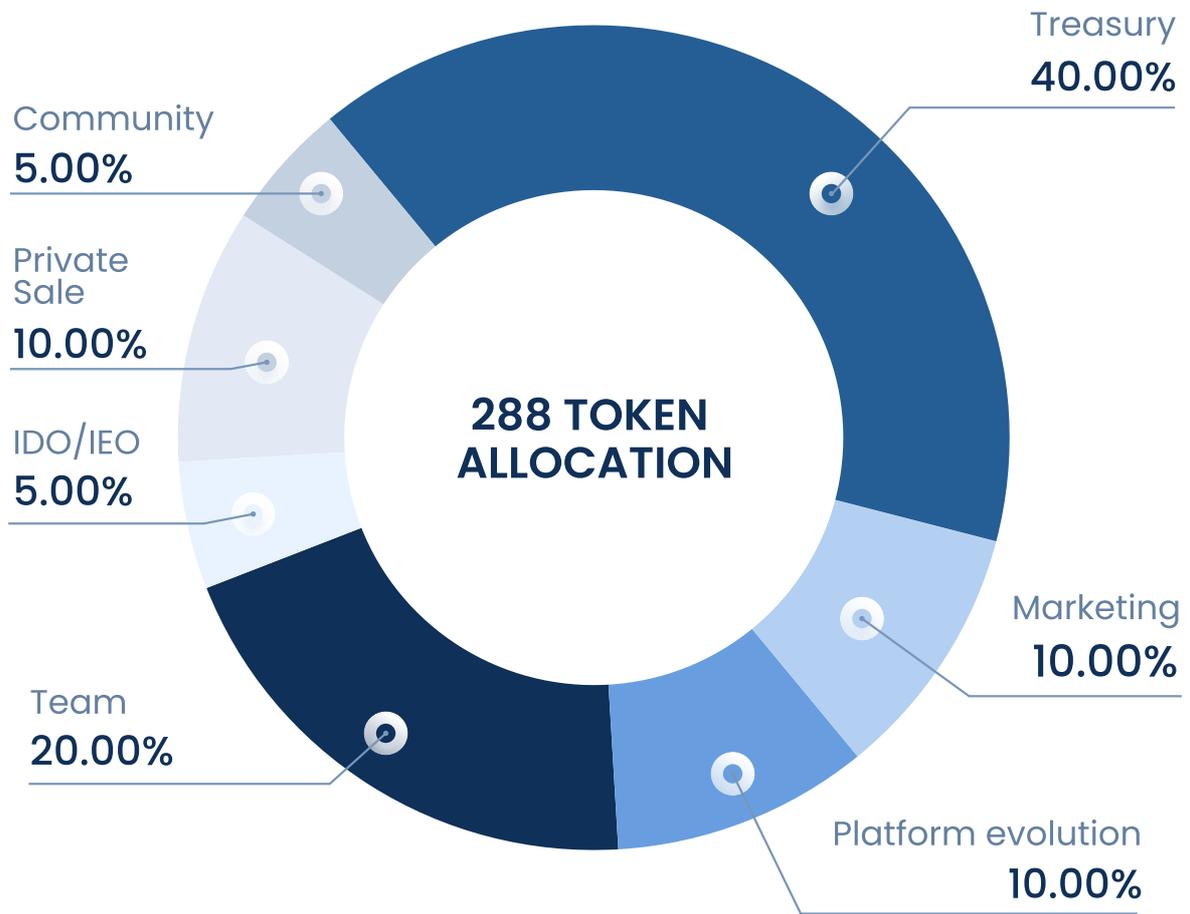

The marketing activities tokens and incentivization program tokens for external advisors \ partners to enroll in the 288 protocol's development and growth will have a 1-month lock-up at TGE before the 24-month vesting period starts.

### **Treasury/Liquidity (40%)**

288 Tokens allocated for liquidity on DEXs will have a 1-month lock-up at TGE before the 24-month vesting period starts.

### **Community (5%)**

288 Tokens allocated for community building and incentivization will have a 1-month lock-up at TGE before the 24-month vesting period starts.

Description of Token Use	Total Supply	%
Private Sale	800,000,000	10%
IDO/IEO	40,000,000	5%
Team	160,000,000	20%
Platform evolution	800,000,000	10%
Marketing	1,200,000,000	15%
Treasury	3,200,000,000	40%
Community	40,000,000	5%
<b>Total</b>	<b>8,000,000,000</b>	<b>100.00%</b>

## Token Utility:

### Staking Rewards

288 token holders will be able to stake their tokens and receive staking rewards, which account for up to 18% of the brokerage's revenue. These rewards are distributed among all staking 288 token holders, providing an opportunity for additional rewards and loyalty tokens.

### Zero Commission Trading

288 Token holders will benefit from zero-commission trading on all financial products STAK Securities Ltd. offers. Hence, the 288 token holders will be onboarded with STAK Securities Ltd. to trade without incurring any transaction fees, enhancing their profitability prospects.

### Institutional Spreads

288 token holders gain access to tight institutional spreads on a wide range of tradable financial instruments, including CFDs on Forex, Crypto, ETFs, Equities, Bonds, and Funds. This ensures competitive pricing and favorable trading conditions for increased profitability.

### Subscription Fee

288 token holders could receive a significant (up to 75%) discount on subscription fees and front loads for Funds and Structured Products. This reduction in costs enables more cost-effective investment opportunities and greater potential returns.

### Fee Discounts

288 token holders could receive a 75% discount on custody fees for the safekeeping of financial instruments. This incentivizes secure asset storage while minimizing expenses.

### Higher Interest Rates on Cash Deposits

288 token holders will benefit from higher interest rates on cash deposits denominated in major currencies such as EUR, USD, and GBP.

### Exclusive Access to Private Placement Investments

288 Token holders will have access to exclusive private placement non-public investment products. This provides unique investment opportunities that are not readily available to the general public, potentially leading to better returns and portfolio diversification.

### Exclusive Company Event Access

288 Token holders will receive exclusive invitations to company events. This allows them to network with industry professionals, stay updated on market trends, gain valuable insights, and expand their personal network.

## Personalized VIP Services

288 token holders will receive personalized VIP services from STAK Securities Ltd, ensuring premium support and attention. This includes a dedicated account manager and a tailored service, enhancing the overall user experience.

# Roadmap and Future Development

## 288 Token Launch & Private Sale \ 2023 Q3

During the third quarter of 2023, we aim to launch the first Private sale. This phase is dedicated to offering tokens to selected qualified investors. The Private sale will provide an exclusive opportunity for early participants to acquire 288 tokens at low prices and secure a stake in the 288 Token project. The Private sale will be only accessible to qualified investors, with a min. investment of USD 100,000 per qualified investor.

## Launch of 288 Token Vesting & Staking \ 2023 Q3

In parallel with the 288 Token launch, the 288 Token protocol will introduce **vesting and staking mechanisms**.

These mechanisms will allow 288 token holders to lock up their 288 tokens for a specific period, promoting 288 Token stability and long-term commitment.

288 Token staking rewards will also be implemented to incentivize active participation and contribution to the 288 project's ecosystem.

## Launch of 288 Token Benefits \ 2023 Q3-Q4

The 288 Token benefits will include:

- zero-commission trading;
- tight institutional spreads;
- discounted custody fees;
- higher interest rates on cash deposit accounts;
- exclusive access to private placement investments and company events;
- personalized VIP services offered by the brokerage house.

The aim is to provide 288 Token holders with a range of valuable advantages and foster a mutually beneficial relationship.

## 288 Token Public Sale \ 2023 Q4

The final quarter of 2023 is a stage of the 288 Token Public Sale through an Initial DEX Offering (IDO). This public sale will allow anyone interested in the 288 Token and STAK Securities Ltd. to become a member and gain access to the benefits.
